Call for Proposals: NSF's Faculty Early Career Development Program (CAREER)

Posted on behalf of the National Science Foundation

The U.S. National Science Foundation (NSF) issues the proposal solicitation for the Faculty Early Career Development Program (CAREER).

This program is a Foundation-wide activity that offers the National Science Foundation's most prestigious awards for faculty members beginning their independent careers. The intent of the program is to provide stable support at a sufficient level and duration to enable awardees to develop careers not only as outstanding researchers but also as educators demonstrating commitment to teaching, learning, and dissemination of knowledge. NSF encourages submission of CAREER proposals from eligible early-career faculty at all CAREER-eligible organizations, especially women, members of underrepresented minority groups, and persons with disabilities.
