Background

Over the years, SRCD has had several policy publications with different names and purposes: *Child Policy Nexus* are long-form reports and are part of SRCD's suite of journals, *Child Policy Nexus Briefs* are short briefings for policymaker audiences that summarize a companion long-form *Child Policy Nexus*, *Statements of the Evidence* are mid-length evidence summaries on a theme, *Child Evidence Briefs* are short briefings on policy areas that were on the Congressional docket ahead of publication, and Child Policy Briefs are short briefings on policy areas that SRCD's Policy Committee determines are relevant for members and policymakers. *Child Policy Nexus* and *Child Policy Briefs* are currently in production.
