Webinar: ERN Webinar on Non-Traditional Careers in STEM

Expanding on our regular webinar series, the ERN teamis presenting an webinar on non-traditional careers in STEM in order to enhance participants awareness of opportunities outside of Academia and the lab bench. Participants will learn about the various pathways that lead to these careers and how to identify and craft competitive resumes and applications for such positions. Over the course of the webinar, panelists will share tips and advice regarding steps that STEM majors and STEM professionals interested in transitioning can take now to prepare for these opportunities.

This webinar will highlight career options from the following areas:

- Patent Law
- Science Communications
- Science Policy
- Regulatory Science

The event will be moderated by Mary Ann Leung, Sustainable Horizons Institute featuring a four member panel: Tanaga Boozer, USPTO; Rafael Luna, Boston College; Angela Whatley, FDA; Elizabeth (Beth) Zeitler, NASEM.

Date: Tuesday, October 9, 2018, 2:00PM to 3:15PM EDT
