# Science-Based Innovation Training Opportunity – Harvard Center on the Developing Child

Want to discover how to apply the science of early childhood development to programs for children and families in a new way that results in powerful change? Join the Harvard University Center on the Developing Child for our next **one-day training on Wednesday, November 28, 2018 in Cambridge, MA!** You'll receive an introduction to the IDEAS Impact Framework™, an approach developed by the Center on the Developing Child to innovative program development and evaluation, and learn:

- How to develop a precise theory of change
- How to create materials that will ensure effective implementation of your program
- How to evaluate your program for continuous learning

This is also a great opportunity to meet Center staff and Frontiers of Innovation leaders, and to connect with others who are passionate about supporting the healthy development of all children.
