NSF Innovation Corps Webinar

Do you have an active NSF award or one that expired less than five years ago? If you were a principal investigator (PI), co-PI, postdoc or senior personnel on the award or project, then you may be eligible for NSF's Innovation Corps (I-Corps) program.

Over the course of seven weeks, scientists and engineers in the I-Corps program will learn the value of customer discovery and how to identify the commercial potential of their NSF-funded academic research from established entrepreneurs.

You and your team receive mentoring, entrepreneurial training and $50,000 for customer discovery.

Curious? Join our next webinar to learn more and ask questions.

Upcoming I-Corps Webinar at 2:00pm (GMT -04:00) on Thursday, December 6, 2018

- Register for upcoming webinar!

- Go to the WebEx link to enter the webinar.

Click “Join” a few minutes before the webinar starts. Enter the information requested and this will enable you to join the visual portion of the meeting.

The meeting number is: **902 318 987**
Meeting Password is: **3kVMpZ4@**

You must join the audio by phone:
Dial: **1-888-464-1607**
Participant Passcode: **7431640**

The National Science Foundation I-Corps program prepares scientists and engineers to extend their focus beyond the university laboratory and accelerates the economic and societal benefits of NSF-funded, basic-research projects that are ready to move toward commercialization. Through I-Corps, NSF grantees learn to identify valuable product opportunities that can emerge from academic research, and gain skills in entrepreneurship through training in customer discovery and guidance from established entrepreneurs.
